

CENTER FOR  
**VETERINARY DENTISTRY  
& ORAL SURGERY**

# SPECIALIZATION BEYOND EXPECTATION

The Center for Veterinary Dentistry and Oral Surgery in Gaithersburg, MD is pleased to announce that Dr. Kendall Taney has achieved the most advanced certification in oral and maxillofacial surgery recognized by the American Veterinary Dental College. The AVDC recently developed a fellowship program to recognize and promote highly skilled specialists with expertise in the most complex oral and maxillofacial surgery techniques. There are currently less than twenty AVDC Oral and Maxillofacial Surgery Fellows worldwide.

Dr. Taney completed a rigorous two-year fellowship program and passed its board examination in May 2022 to become an AVDC Fellow, Oral and Maxillofacial Surgery. She has been a partner at the Center for Veterinary Dentistry and Oral Surgery since 2008 and became a Diplomate of the American Veterinary Dental College in 2008 as well. Much of her career has been dedicated to the treatment of complex maxillofacial disorders including trauma, oral oncologic surgery, and reconstructive surgery. She has authored numerous publications on advanced oral surgery, including a **recent study on reconstruction of hard palate defects.**

The Center for Veterinary Dentistry and Oral Surgery offers treatment for a variety of complex disorders such as large head and neck tumors, repair of cleft lip and

palate defects, jaw fractures, and certain ear, nose, and throat procedures. The Center utilizes cutting edge equipment and techniques such as cone beam computed tomography (CBCT) imaging, piezoelectric surgery, bone plating, and minimally invasive fracture repair technology. The Center welcomes consultations on complex cases.
